Minutes by	Bend Hekele

## 2 Agenda

- D7.1 Review
- T7.2 Secondary Tools Chain Status and Steps

## 3 Discussion

- D7.1 Review  
Document has been updated after Review. Status is now approaching "Closing" state. No major technical options are open. The decisions proposed in the document will be finalized in Braunschweig. Open issues are related to resource allocations for covering the modelling efforts. These issues will be taken care of outside D7.1, e.g., in the PCC scheduled in Braunschweig.
- T7.2 Secondary Tools Chain Status and Steps  
Work on secondary tools chain is now proceeding. A draft document for this artefact is available. The process for benchmarking is open and needs definition. <https://github.com/openETCS/model-evaluation/wiki/Secondary-Tools-Analyses>
