Minutes by	Bernd Hekele

2 Agenda

- Upcoming Events
- Update on Modelling tools - Scade System Beta
- each partner: impediments, progress
- a.o.b.

3 Discussion

- Upcoming Events

The **openETCS API** is scheduled for May 13th in Munich. It is planned as a technical workshop to conclude on the discussion about the structure and open issues in the review.

The next **WP3 modelling workshop**, now under management of Alstom, is scheduled to take place on May 26th - May 28th. Location of the meeting is close to Brussels Midi. The agenda has been discussed and will be distributed to the participants after todays meeting.
- Update on Modelling tools - Scade System Beta

Esterel has released the Beta for Scade System. The update is available via the update mechanismus of Scade Suite. If you need help get in touch with openETCS projectoffice. Peyman started to test the interface *Papyrus - Scade System - Scade Suite* based on the example of the dataDictionary. Alexander supports this activity. As a result of this action we plan to provide a "requirements and wishes" for support by Esterel for openETCS.
- each partner: impediments, progress

Status is updated in SRS-Analysis and in the modelling repository.

Contributions have been done to the SysML models and in the data dictionary. In addition, comments have been received on the modelling contribution to the "list of

methods and techniques (to meet CENELEC 50128”) <https://github.com/openETCS/governance/issues/88> and ”Template for Competence Matrix”<https://github.com/openETCS/governance/issues/63>.

- a.o.b.
