Minutes by	Bernd Hekele

## 2 Agenda

- API Requirements Issues and Action plan

## 3 Discussion

- API Requirements Issues and Action plan  
The API strategy and review meeting on April 10th resulted in the understanding the requirements on the API are not sufficiently defined. Meeting minutes are visible here: [https://github.com/openETCS/requirements/blob/master/D2.7-Technical\\_Appendix/2014-04-12-Munich-Meeting/Review\\_Meeting\\_140410.md](https://github.com/openETCS/requirements/blob/master/D2.7-Technical_Appendix/2014-04-12-Munich-Meeting/Review_Meeting_140410.md). The action needs some support from the project organisation. In order to have a place for communication this WP2 slot will be used for the administration.
