Minutes by	Bernd Hekele

2 Agenda

- Upcoming Events
- Update on Modelling tools - Scade System Beta
- each partner: impediments, progress
- a.o.b.

3 Discussion

- Actual Events

The **openETCS API** review took place in Munich. You can find information about this event on Github: https://github.com/openETCS/requirements/tree/master/D2.7-Technical_Appendix/2014-05-13-Munich-Meeting. Meeting minutes are currently under review.

For results and further reading, please refer to the minutes.

The next **WP3 modelling workshop**, now under management by Alstom, is scheduled to take place on May 26th - May 28th. Agenda and further reading can be found here:

https://github.com/openETCS/modeling/tree/master/meetings/Team-Meeting_Brussels-2014

- Update on Modelling tools - Scade System Beta

Esterel has released the Beta for Scade System. The openETCS use-case is now under investigation at DB. We have started a discussion with Esterel on our findings. A workshop should be scheduled for June.

- openETCS API Requirements

We returned to the definition of requirements for an openETCS API. This document can be seen as a guideline for future contracts. The actual version of the document is available here: https://github.com/openETCS/requirements/blob/master/D2.7-Technical_Appendix/2014-05-13-Munich-Meeting/Bullit%20point%20openETCS%20requirements_20140511.pdf. Baseliyos opened the <https://github.com/openETCS/>

[requirements/issues/64](#) for review contributions. It is currently under clarification how and where the information will be finally located.

- each partner: impediments, progress
Matthieu gave an update on the status for the Papyrus Luna Release. He gave the recommendation to prepare for a trial of the latest Luna release in the openETCS toolchain. A first test of our model in the new release showed some needs for correction in the models. The follow-up of this issue is part of the WP7 plan.
- a.o.b.

4 Notes

- Note: Location of Meeting Minutes
You can find these minutes here: https://github.com/openETCS/governance/blob/master/scrumMeetings/WP3-Modeling/Minute_20140516_WP3.pdf. Please, use the issue tracker for findings in the minutes.
