3   Discussion

- D7.2 Assessment
  The assessment of the first set of tools related to "management"is extended. Contribution was not sufficient. Therefore, the assessment will be extended by 22nd of November.

  Also, for other parts not yet due, insufficient participation in the assessment has been noted. It is proposed to relax the rules for tool assessment according to participation (e.g., in less used tools only one assessment is sufficient if not enough volunteers are visible.

- Data Dictionary Design Specification Data Dictionary tool activities are now concentrated on the data dictionary repository.

- D7.4 Review Review of D7.4 (1st release) is planned to be started begin of week.
