Minutes by	Bernd Hekele

2 Agenda

- V&V Revision of D4.2

- Preparation of concurrent verification

3 Discussion

- V&V Revision of D4.2
  The revision of the parts of D4.2 is ongoing. You can follow the discussions on the issue tracker.

- Preparation of concurrent verification
  We want to test to run the verification and the moelling activities closely linked (i.e., concurrent) for the upcoming modelling iteration. Jan will present the concept in the modelling workshop next week in Munich. A follow-up of the activity is planned in the WP4 meeting on Wednesday, March 19th. The meeting on March 12th is cancelled due to the overlap with the WP3 meeting.
