Minutes by	Bernd Hekele

2 Agenda

- Activities

3 Discussion

- Proposal for D7.2 Assessment
  Since only small contribution to the heavy-load assessment process actually has happened and, on the other hand, quite a number of tools in assessment are specialised to a single task, we propose to skip this process. SSmall tools"for specialised use-cases can be used within the project without running through the assessment process.

- First Build on openETCS Build server has been released.
